

# CHAD MEMBER AGENCIES

100% OF DESIGNATIONS GO DIRECTLY TO FULL MEMBER AGENCIES

CHAD (Combined Health Agencies Drive) is a local, donor-designation driven organization that has raised funds for Nebraska's leading health agencies since 1972.

Valuable contributions from statewide workplace campaigns give Nebraskans with health diagnoses access to critical resources, networks, programs and support.

Thank you for your gift that empowers Nebraskans with chronic diseases, disabilities, and end-of-life care needs and ensures our 24 member agencies thrive.

WE KEEP AMERICA MOVING®

Connecting companies and causes to raise funds for Nebraska's leading health agencies

THANK YOU FOR REMEMBERING CHAD IN YOUR CHARITABLE GIFT PLANNING.

# WHO YOU HELP

Heart Heroes is more than just a cape. It is friendship and family, a shoulder to lean on and lift you up, advocacy and awareness, connections and support, shared experiences and advice, empowerment and hope.

Heart Heroes is there beside you through the darkest and brightest days. It is the group you never knew you needed but are incredibly blessed to have.

- Wiseman Family, Shelton, NE

Currently, there is no cure for Type 1 diabetes but there is hope. The efforts and advocacy of JDRF Nebraska-Iowa Chapter and CHAD are important to me because one day I hope to be able to say, "Our son used to have diabetes."

- Carrie Keene, Elba, NE

**Arthritis Foundation Nebraska** has given me many opportunities to advocate for not only myself but for all the other children who have also been diagnosed with juvenile arthritis.

- Emily Theis, Osceola, NE

You are not alone. Whether you have struggled with suicide or lost a loved one, you are not alone. **American Foundation for Suicide Prevention Nebraska** supports people in your community whose lives have been impacted by suicide.

- Donna Wolff,  
Norfolk, NE
