

# Connecting companies and causes for over 50 years

CHAD (Combined Health Agencies Drive) raises funds to support our members' missions. We promote employee engagement and wellness through worksite partnerships and connect donors with health causes they care about. As a unique, Nebraska-based organization, we are making sure our member agencies are impacting local communities across the state and providing resources for all Nebraskans. Dollars given so generously make sure our agencies can:

- provide care and support programs for those affected by chronic disease, disabilities and end-of-life issues.
- fund education and prevention programs in our communities.
- support advocacy and medical research efforts.

## Funding Agencies

- Donors who give during our statewide campaign ensure our 24 member agencies are funded on a consistent basis.
- Federated giving allows our agencies to focus on programming, saving them over \$100,000 in fundraising expenses each year.
- 100% of donor-designated dollars go directly to full-member agencies.
- Since 1972, we have raised \$64 M for our agencies.
- Last year, 89 cents of every dollar donated went to support our mission all across the state.

## Changing Lives

- All agencies offer support that is tailored to the needs of the people they serve, including support groups, camps, equipment loans, advocacy and more.
- In partnership with their national organizations, 18 of our member agencies funded **\$892,374,569 of medical research** for diagnostic tools, better treatment options and ultimately a cure.
- Member agencies provide information to help with next steps through local networks, conferences, helplines, online resources more.
